Experiment No: 2

1.Aim: creating list in html.

2.Source code:

```html
<html>
   <head><title>list</title>
   </head>
   <body>
     <p>
        <h1><center><b><font size="10">Nested List in
HTML</font></b></center></h1>
        <hr>
        <ol type="1"><font size="5">
          <li><font color="lightblue">Input Devices</font>

          <ol type="a">
            <li><font color="orange">Pointng Devices</font>
              <ul type="disc">
                <li><font color="purple">Mouse</font>
                  <ul type="circle">
                   <font color="green">
                   <li>Opitical Mouse</li>
                   <li>Mechanical Mouse</li>
                   <li>Wireless Mouse</font>
                     <font color="yellow">
                     <ul type="square">
                        <li>Rf Mouse</li>
                        <li>Bluetooth Mouse</li></font>
                     </ul>
                   </li>
                 </ul>
                </li>
                <font color="purple">
              <li>Trackball</li>
              <li>Touchpad</li>
              <li>Pointing Stick</li></font>
            </ul>
          </li>
          <font color="orange">
          <li >Touch Screen</li>
          <li >Video Input & Audio Input Devices</font>
```

```html
            <ul type="disc">
               <font color="purple">
               <li>Digital Video Camera</li>
               <li>Web cams</li></font>

             </ul>
           </li>
            </ol>

         </li>
         <font color="lightblue">
         <li>Output Devices</font>
            <ol type="a">
               <font color="purple">
               <li>Printers
                  <ul type="disc">
                     <li>Impact Printer</li>
                     <li>Non-Impact printer</li></font>
                  </ul>
               </li>
            </ol>
         </li></font>
      </ol>

    </p>
  </body>

</html>
```

3.Output:

Nested List in HTML

1. Input Devices
    a. Pointng Devices
        - Mouse
            - Opitical Mouse
            - Mechanical Mouse
            - Wireless Mouse
                - Rf Mouse
                - Bluetooth Mouse
        - Trackball
        - Touchpad
        - Pointing Stick
    b. Touch Screen
    c. Video Input & Audio Input Devices
        - Digital Video Camera
        - Web cams
2. Output Devices
    a. Printers
        - Impact Printer
        - Non-Impact printer
